

WeRateDogs Insights for Dogs' Lovers

WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog, these ratings almost always have been a denominator of 10, The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, etc. Why? Because "[they're good dogs Brent.](#)" If you are a dogs' lover like me; the insights gleaned from this twitter account data introduces some interesting facts about dogs and dogs' lovers behavior towards their posts that mostly features dogs' photo in it.

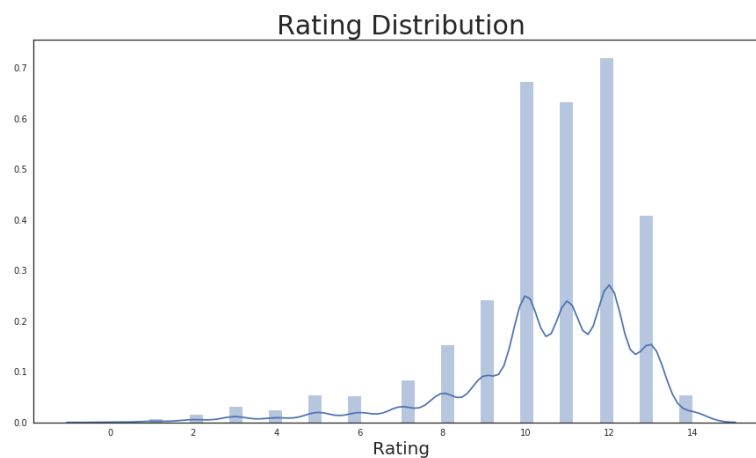

Is there any correlation between favorite count and retweet count?

As we can see below; there is a real strong correlation.

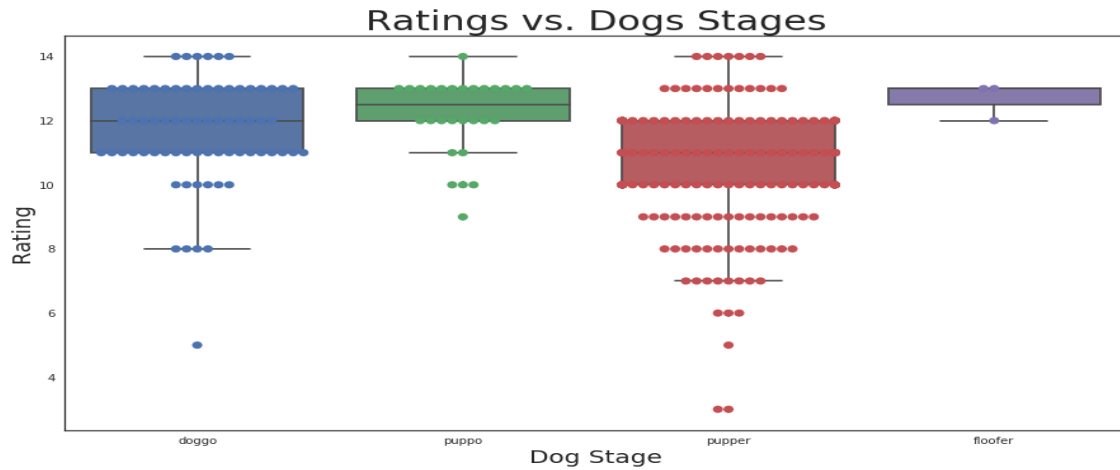

But I also wondered what are the different factors that may affect dogs' rating?

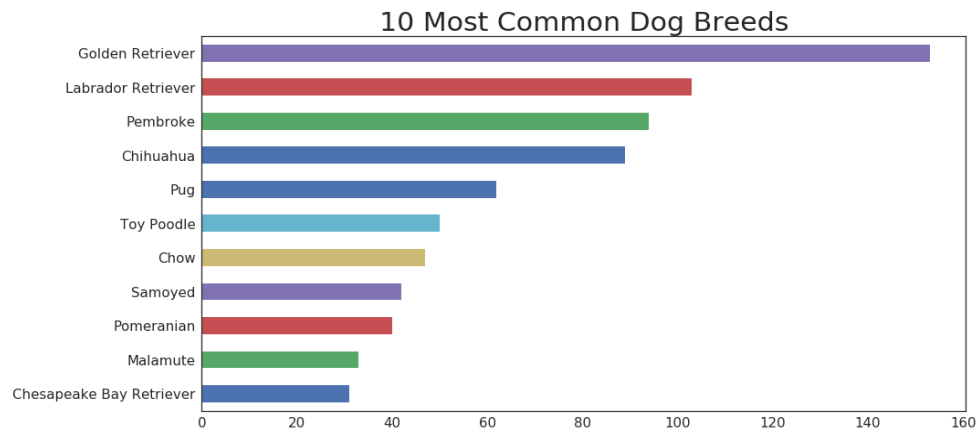

-Apparently all people love dogs, Most ratings are over 10

- Most dogs are at pupper stage, but they have received the lowest rating comparatively.
- The highest rating stage group is floofer.

-The dogs' breed also has its impacts; the most frequent dog breed featured in the tweets are as follow:

-The top 10 highest rating are as follow:
